## **CD1B Polyclonal Antibody**

catalog number: E-AB-17775

Note: Centrifuge before opening to ensure complete recovery of vial contents.

Description	
-	Human
Reactivity	
Immunogen	Synthetic peptide of human CD1B
Host	Rabbit
Is otype	IgG
Purification	Antigen affinity purification
Conjugation	Unconjugated
buffer	Phosphate buffered solution, pH 7.4, containing 0.05% stabilizer and 50% glycerol.
Applications	Recommended Dilution
IHC	1:50-1:300
Data	
•	of paraffin-embedded Human liver B Polyclonal Antibody at dilution of 1:55(×200)
cancer tissue using CD1	B Polyclonal Antibody at dilution of
•	B Polyclonal Antibody at dilution of
cancer tissue using CD1 Preparation & Storage	B Polyclonal Antibody at dilution of 1:55(×200)
cancer tissue using CD1 Preparation & Storage Storage	B Polyclonal Antibody at dilution of 1:55(×200) Store at -20°C Valid for 12 months. Avoid freeze / thaw cycles. The product is shipped with ice pack,upon receipt,store it immediately at the

Diseases associated with CD1B include Mycobacterium Malmoense gan Benign Neoplasm. Among its related pathways are Immunoregulatory interactions between ymphoid cell and Innate Immune System. GO annotations related to this gene include beta-2- and endogenous lipid antigen binding. An important paralog of this gene is CD1C. This gene te CD1 family of transmembrane glycoproteins, which are structurally related to the major</li> </ul>

their cellular localization and specificity for particular lipid ligands. The protein encoded by this gene localizes to late endosomes and lysosomes via a tyrosine-based motif in the cytoplasmic tail, and requires vesicular acidification to bind lipid antigens.
