Data

SDS-PAGE analysis of Rat CRP/C-Reactive proteins, 2µg/lane of Recombinant Rat CRP/C-Reactive proteins was resolved with SDS-PAGE under reducing conditions, showing bands at 30 KD.

Background

Displays several functions associated with host defense: it promotes agglutination, bacterial capsular swelling, phagocytosis and complement fixation through its calcium-dependent binding to phosphorylcholine. Can interact with DNA and histones and may scavenge nuclear material released from damaged circulating cells.
