FADD Polyclonal Antibody

catalog number: E-AB-93254

Note: Centrifuge before opening to ensure complete recovery of vial contents.

Description

Reactivity Human; Mouse; Rat

Immunogen Recombinant fusion protein of mouse FADD

Host Rabbit Isotype IgG

Purification Affinity purification

Buffer Phosphate buffered solution, pH 7.4, containing 0.05% stabilizer and 50% glycerol.

Applications Recommended Dilution WB 1:200-1:2000 IF 1:50-1:200 IP 1:50-1:200

Data

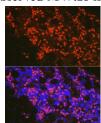

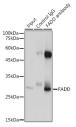

Western blot analysis of extracts of Mouse heart using FADD Western blot analysis of extracts of Jurkat cells using FADD Polyclonal Antibody at 1:1000 dilution.

Polyclonal Antibody at 1:1000 dilution.

Observed-MW:28 kDa

Observed-MW:28 kDa

Immunofluorescence analysis of mouse bone marrow cells using FADD Polyclonal Antibody at dilution of 1:100 (40x lens). Blue: DAPI for nuclear staining.

Immunoprecipitation analysis of 600ug extracts of Mouse heart cells using 3ug FADD Polyclonal Antibody. Western blot was performed from the immunoprecipitate using FADD Polyclonal Antibody at a dilution of 1:1000.

Observed-MW:28 kDa

Preparation & Storage Storage Store at -20°C Valid for 12 months. Avoid freeze / thaw cycles. Shipping The product is shipped with ice pack,upon receipt,store it immediately at the temperature recommended.

For Research Use Only

Elabscience®

Apoptotic adaptor molecule that recruits caspase-8 or caspase-10 to the activated Fas (CD95 or TNFR-1 receptors. The resulting aggregate called the death-inducing signaling complex (DISC performs caspase-8 proteolytic activation. Active caspase-8 initiates the subsequent cascade of caspases mediating apoptosis. Involved in interferon-mediated antiviral immune response, playing a role in the positive regulation of interferon signaling.
