

A Reliable Research Partner in Life Science and Medicine

Recombinant Clathrin Heavy Chain Monoclonal Antibody

catalog number: AN301046L

Note: Centrifuge before opening to ensure complete recovery of vial contents.

Description

Reactivity Human; Mouse; Rat

Immunogen Recombinant Human Clathrin Heavy Chain protein

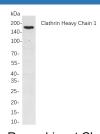

HostRabbitIsotypeIgG,KCloneB801PurificationProtein A

Buffer PBS, 50% glycerol, 0.05% Proclin 300, 0.05% protein protectant.

Applications Recommended Dilution

WB 1:500-1:2000

Data

Western Blot with Recombinant Clathrin Heavy Chain Monoclonal Antibody at dilution of 1:1000 dilution. Lane A:

Hela cells.

Observed-MW:180 kDa Calculated-MW:192 kDa

Preparation & Storage

Storage Storage Store at -20°C Valid for 12 months. Avoid freeze / thaw cycles.

Shipping Ice bag

Background

Clathrin is a major protein component of the cytoplasmic face of intracellular organelles, called coated vesicles and coated pits. These specialized organelles are involved in the intracellular trafficking of receptors and endocytosis of a variety of macromolecules. The basic subunit of the clathrin coat is composed of three heavy chains and three light chains.
