

# ADCY7 Polyclonal Antibody

Catalog Number:E-AB-12951

**Note:** Centrifuge before opening to ensure complete recovery of vial contents.

## Description

|                     |                                                     |
|---------------------|-----------------------------------------------------|
| <b>Reactivity</b>   | Human                                               |
| <b>Immunogen</b>    | Synthetic peptide of human ADCY7                    |
| <b>Host</b>         | Rabbit                                              |
| <b>Isotype</b>      | IgG                                                 |
| <b>Purification</b> | Affinity purification                               |
| <b>Conjugation</b>  | Unconjugated                                        |
| <b>Formulation</b>  | PBS with 0.05% sodium azide and 50% glycerol, PH7.4 |

## Applications Recommended Dilution

|            |            |
|------------|------------|
| <b>IHC</b> | 1:25-1:100 |
|------------|------------|

## Data

Immunohistochemistry of paraffin-embedded Human breast cancer tissue using ADCY7 Polyclonal Antibody at dilution 1:60

## Preparation & Storage

|                |                                             |
|----------------|---------------------------------------------|
| <b>Storage</b> | Store at -20°C. Avoid freeze / thaw cycles. |
|----------------|---------------------------------------------|

## Background

This gene encodes a membrane-bound adenylate cyclase that catalyses the formation of cyclic AMP from ATP and is inhibitable by calcium. The product of this gene is a member of the adenylyl cyclase class-4/guanylyl cyclase enzyme family that is characterized by the presence of twelve membrane-spanning domains in its sequences.
