Elabscience®

FAS Polyclonal Antibody

catalog number: E-AB-40063

Note: Centrifuge before opening to ensure complete recovery of vial contents.

Description			
Reactivity	Human;Mouse	Human;Mouse	
Immunogen	Recombinant human Tumor necrosis factor receptor superfamily	Recombinant human Tumor necrosis factor receptor superfamily member 6 protein	
Host	Rabbit		
Isotype	IgG		
Purification	Antigen Affinity Purification	Antigen Affinity Purification	
Buffer	PBS with 0.05% Proclin300, 1% protective protein and 50% glycer	ol, pH7.4	
Applications	Recommended Dilution		
WB	1:500-1:1000		
IHC	1:50-1:100		
Data			
	1280. 1000. 700. 300. 300. 300. 140.		
Western Blot analysis	s of Hela and Raji cells using FAS Immunohistochemistry of paraffin-eml	bedded Mouse liver	
Polyclonal A	ntibody at dilution of 1:600 using FAS Polyclonal Antibody at	dilution of 1:50	
Observed-MW:45 kDa			
Calculated-MW:37 kDa			
Preparation & Storage			
Storage	Store at -20°C Valid for 12 months. Avoid freeze / thaw cycles.	Store at -20°C Valid for 12 months. Avoid freeze / thaw cycles.

Background

Fas (CD95/APO-1) is a transmembrane glycoprotein belonging to the tumor necrosis factor (TNF) receptor superfamily. It can mediates apoptosis by ligation with an agonistic anti-Fas antibody or Fas ligand. Stimulation of Fas results in the aggregation of its intracellular death domains, leading to the formation of the death-inducing signaling complex (DISC). FAS-mediated apoptosis may have a role in the induction of peripheral tolerance, in the antigen-stimulated suicide of mature T-cells,or both. The molecular mass of native Fas is 38 kDa, the high molecular weight form (40-55 kDa) of Fas is due to glycosylation.
