Elabscience®

CSTF3 Polyclonal Antibody

catalog number: E-AB-19097

Note: Centrifuge before opening to ensure complete recovery of vial contents.

Human
Fusion protein of human CSTF3
Rabbit
IgG
Antigen affinity purification
Phosphate buffered solution, pH 7.4, containing 0.05% stabilizer and 50% glycerol.
Recommended Dilution
1:500-1:2000
kDa 1 2 250
ed-MW:Refer to figures
culated-MW:83 kDa
ige
Store at -20°C Valid for 12 months. Avoid freeze / thaw cycles.
The product is shipped with ice pack, upon receipt, store it immediately at the
The product is shipped with the pack, upon receipt, store it introductery at the

Background

The protein encoded by this gene is one of three (including CSTF1 and CSTF2) cleavage stimulation factors that combine to form the cleavage stimulation factor complex (CSTF). This complex is involved in the polyadenylation and 3' end cleavage of pre-mRNAs. The encoded protein functions as a homodimer and interacts directly with both CSTF1 and CSTF2 in the CSTF complex. Alternative splicing results in multiple transcript variants encoding different isoforms.
