

Recombinant vWF Monoclonal Antibody

catalog number: AN300105P

Note: *Centrifuge before opening to ensure complete recovery of vial contents.*

Description

Reactivity	Human;Mouse;Rat
Immunogen	Recombinant Human vWF protein
Host	Rabbit
Isotype	IgG
Clone	C120079
Purification	Protein A
Buffer	0.2 µm filtered solution in PBS

Applications

Recommended Dilution

WB: 1:1000-1:5000; IHC-P: 1:1000-1:10000

Data

Immunohistochemistry of paraffin-embedded human tonsil blood vessel using vWF Monoclonal Antibody at dilution of 1:1000.

Immunohistochemistry of paraffin-embedded human stomach blood vessel using vWF Monoclonal Antibody at dilution of 1:1000.

Immunohistochemistry of paraffin-embedded human muscle blood vessel using vWF Monoclonal Antibody at dilution of 1:1000.

Immunohistochemistry of paraffin-embedded human lymphonode blood vessel using vWF Monoclonal Antibody at dilution of 1:1000.

Preparation & Storage

Storage	Store at -20°C Valid for 12 months. Avoid freeze / thaw cycles.
Shipping	Ice bag

Background

This gene encodes a glycoprotein involved in hemostasis. The encoded preproprotein is proteolytically processed following assembly into large multimeric complexes. These complexes function in the adhesion of platelets to sites of vascular injury and the transport of various proteins in the blood. Mutations in this gene result in von Willebrand disease, an inherited bleeding disorder. An unprocessed pseudogene has been found on chromosome 22. [provided by RefSeq, Oct 2015]
