

RHEB Polyclonal Antibody

catalog number: **E-AB-16645**

Note: Centrifuge before opening to ensure complete recovery of vial contents.

Description

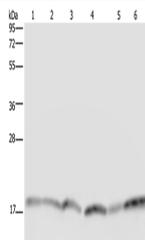

Reactivity	Human;Mouse;Rat
Immunogen	Synthetic peptide of human RHEB
Host	Rabbit
Isotype	IgG
Purification	Affinity purification
Buffer	Phosphate buffered solution, pH 7.4, containing 0.05% stabilizer and 50% glycerol.

Applications

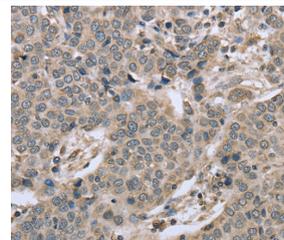

Recommended Dilution

WB	1:500-1:2000
IHC	1:50-1:200

Data

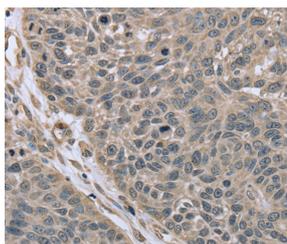

Western Blot analysis of Human brain malignant glioma tissue, Jurkat, Raji and 231 cell, Human fetal brain tissue and Hela cell using RHEB Polyclonal Antibody at dilution of 1:300

Immunohistochemistry of paraffin-embedded Human liver cancer using RHEB Polyclonal Antibody at dilution of 1:40

Calculated-MW:20 kDa

Immunohistochemistry of paraffin-embedded Human lung cancer using RHEB Polyclonal Antibody at dilution of 1:40

Preparation & Storage

Storage	Store at -20°C Valid for 12 months. Avoid freeze / thaw cycles.
Shipping	The product is shipped with ice pack,upon receipt,store it immediately at the temperature recommended.

Background

For Research Use Only

This gene is a member of the small GTPase superfamily and encodes a lipid-anchored, cell membrane protein with five repeats of the RAS-related GTP-binding region. This protein is vital in regulation of growth and cell cycle progression due to its role in the insulin/TOR/S6K signaling pathway. The protein has GTPase activity and shuttles between a GDP-bound form and a GTP-bound form, and farnesylation of the protein is required for this activity. Three pseudogenes have been mapped, two on chromosome 10 and one on chromosome 22.
