

MIF Monoclonal Antibody(Capture)

catalog number: AN001720P

Note: Centrifuge before opening to ensure complete recovery of vial contents.

Description

Reactivity	Human
Immunogen	Recombinant Human MIF protein expressed by E.coli
Host	Rat
Isotype	Rat IgG1
Clone	6H9
Purification	Protein A/G Purification
Conjugation	Unconjugated
buffer	Phosphate buffered solution, pH 7.2, containing 0.05% proclin 300.

Applications

Recommended Dilution

ELISA Capture	2-8 µg/mL
----------------------	-----------

Data

Sandwich ELISA-Recombinant Human MIF protein standard curve. Background subtracted standard curve using MIF antibody (AN001720P) (Capture), MIF antibody (AN001730P) (Detector) in sandwich ELISA. The reference range value for Recombinant Human MIF protein is 31.25-2000 pg/mL.

Preparation & Storage

Storage	Store at 4°C valid for 12 months or -20°C valid for long term storage, avoid freeze / thaw cycles.
Shipping	The product is shipped with ice pack, upon receipt, store it immediately at the temperature recommended.

Background

This gene encodes a lymphokine involved in cell-mediated immunity, immunoregulation, and inflammation. It plays a role in the regulation of macrophage function in host defense through the suppression of anti-inflammatory effects of glucocorticoids. This lymphokine and the JAB1 protein form a complex in the cytosol near the peripheral plasma membrane, which may indicate an additional role in integrin signaling pathways.

For Research Use Only
