## Elab Fluor<sup>®</sup> 647 Anti-Human CD68 Antibody[Y1/82A]

Catalog Number: E-AB-F1299M

Note: Centrifuge before opening to ensure complete recovery of vial contents.

Description			
Reactivity	Human		
Host	Mouse		
Isotype	Mouse IgG2b, κ		
Clone No.	Y1/82A		
Isotype Control	Elab Fluor <sup>®</sup> 647 Mouse IgG2b, κ Isotype Control[MPC-11] [Product E-AB-F09812M]		
Conjugation	Elab Fluor <sup>®</sup> 647		
Conjugation Information	Elab Fluor <sup>®</sup> 647 is designed to be excited by the Red laser (627-640 nm) and detected using an optical filter centered near 670 nm (e.g., a 660/20 nm bandpass filter).		
Storage Buffer	Phosphate buffered solution, pH 7.2, containing 0.09% stabilizer and 1% protein protectant.		
Applications	Recommended usage		
FCM	Each lot of this antibody is quality control tested by flow cytometric analysis. The amount of the reagent is suggested to be used 5 µL of antibody per test (million cells in 100 µL staining volume or per 100 µL of whole blood). Please check your vial before the experiment. Since applications vary, the appropriate dilutions must be determined for individual use.		

Data

Staining of normal human peripheral blood cells with Elab

Fluor<sup>®</sup> 647 Anti-Human CD68 Antibody[Y1/82A] (filled gray histogram) or Elab Fluor<sup>®</sup> 647 Mouse IgG2b, κ Isotype Control (empty black histogram). Cells in the lymphocytes gate were used for analysis.

Preparation & Storage			
Storage	Keep as concentrated solution.		
	This product can be stored at 2-8°C for 12 months. Please protected from prolonged		
	exposure to light and do not freeze.		
Shipping	Ice bag		
Antigen Information			
Alternate Names	Macrosialin		
Uniprot ID	P34810

Gene ID
Background

## 968

CD68 is a 110 kD glycoprotein, also known as macrosialin, belonging to the sialomucin family. It is closely related to the family of acidic, highly glycosylated lysosomal-associated membrane proteins (LAMPs). CD68 is predominately expressed in cytoplasmic granules of monocytes/macrophages, dendritic cells, and granulocytes. It is one of the useful myeloid cell markers. Further studies have shown that CD68 is also expressed by a subset of hematopoietic progenitors,  $\gamma/\delta$  T cells, NK cells, LAK cells, subset of B cells, fibroblasts, and endothelial cells. The biological function of CD68 is still unknown.
