

A Reliable Research Partner in Life Science and Medicine

# **Recombinant Cytokeratin 7 Monoclonal Antibody**

catalog number: AN300948L

Note: Centrifuge before opening to ensure complete recovery of vial contents.

### **Description**

Reactivity Human; Mouse; Rat

Immunogen Recombinant Human Cytokeratin 7 protein

HostRabbitIsotype $IgG,\kappa$ CloneB895PurificationProtein A

Buffer PBS, 50% glycerol, 0.05% Proclin 300, 0.05% protein protectant.

## Applications Recommended Dilution

**IHC** 1:1000-1:2000 **WB** 1:1000-1:5000

#### Data

Western Blot with Recombinant Cytokeratin 7 Monoclonal Antibody at dilution of 1:1000 dilution. Lane A: Hela cells.

Immunohistochemistry of paraffin-embedded rat bladder using Recombinant Cytokeratin 7 Monoclonal Antibody at dilution of 1:200.

Observed-MW:55 kDa Calculated-MW:51 kDa

# **Preparation & Storage**

Storage Store at -20°C Valid for 12 months. Avoid freeze / thaw cycles.

Shipping lce bag

### **Background**

KRT7(keratin 7) Homo sapiens The protein encoded by this gene is a member of the keratin gene family. The type II cytokeratins consist of basic or neutral proteins which are arranged in pairs of heterotypic keratin chains coexpressed during differentiation of simple and stratified epithelial tissues. This type II cytokeratin is specifically expressed in the simple epithelia lining the cavities of the internal organs and in the gland ducts and blood vessels. The genes encoding the type II cytokeratins are clustered in a region of chromosome 12q12-q13. Alternative splicing may result in several transcript variants; however, not all variants have been fully described.
