

L-Selectin/CD62L Polyclonal Antibody(Capture/Detector)

catalog number: **AN003950P**

Note: Centrifuge before opening to ensure complete recovery of vial contents.

Description

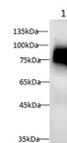

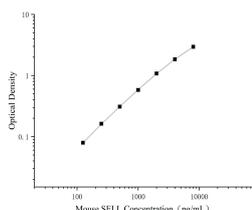

Reactivity	Mouse
Immunogen	Recombinant Mouse L-Selectin/CD62L Protein expressed by Mammalian
Host	Rabbit
Isotype	Rabbit IgG
Purification	Antigen Affinity Purification
Buffer	Phosphate buffered solution, pH 7.2, containing 0.05% proclin 300.

Applications

Recommended Dilution

ELISA Capture	2-8 µg/mL
ELISA Detector	0.1-0.4 µg/mL
WB	1:500-1:1000

Data

Sandwich ELISA-Recombinant Mouse L-Selectin/CD62L Protein standard curve. Background subtracted standard curve using Anti-L-Selectin/CD62L antibody(AN003950P) (Capture), Anti-L-Selectin/CD62L antibody(AN003950P) (Detector). The reference range value is 125.0 - 8,000 pg/mL for mouse.

Western blot with Anti L-Selectin/CD62L Polyclonal antibody at dilution of 1:1000. Lane 1: Mouse serum.

Observed-MW:80-100 kDa

Calculated-MW:42 kDa

Preparation & Storage

Storage	Store at 4°C valid for 12 months or -20°C valid for long term storage, avoid freeze / thaw cycles.
Shipping	The product is shipped with ice pack, upon receipt, store it immediately at the temperature recommended.

Background

This gene encodes a cell surface adhesion molecule that belongs to a family of adhesion/homing receptors. The encoded protein contains a C-type lectin-like domain, a calcium-binding epidermal growth factor-like domain, and two short complement-like repeats. The gene product is required for binding and subsequent rolling of leucocytes on endothelial cells, facilitating their migration into secondary lymphoid organs and inflammation sites. Single-nucleotide polymorphisms in this gene have been associated with various diseases including immunoglobulin A nephropathy. Alternatively spliced transcript variants have been found for this gene.
