

A Reliable Research Partner in Life Science and Medicine

# **HUS1 Polyclonal Antibody**

catalog number: E-AB-18816

Note: Centrifuge before opening to ensure complete recovery of vial contents.

#### Description

Reactivity Human; Mouse

Immunogen Fusion protein of human HUS1

Host Rabbit
Isotype IgG

Purification Antigen affinity purification

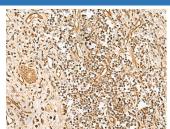

**Buffer** Phosphate buffered solution, pH 7.4, containing 0.05% stabilizer and 50% glycerol.

# **Applications** Recommended Dilution

**IHC** 1:50-1:300

#### Data

Immunohistochemistry of paraffin-embedded Human lung Immunohistochemistry of paraffin-embedded Human prost cancer tissue using HUS1 Polyclonal Antibody at dilution at cancer tissue using HUS1 Polyclonal Antibody at dilution of  $1:65(\times 200)$  of  $1:65(\times 200)$ 

## Preparation & Storage

Storage Storage Store at -20°C Valid for 12 months. Avoid freeze / thaw cycles.

**Shipping** The product is shipped with ice pack, upon receipt, store it immediately at the

temperature recommended.

### Background

The protein encoded by this gene is a component of an evolutionarily conserved, genotoxin-activated checkpoint complex that is involved in the cell cycle arrest in response to DNA damage. This protein forms a heterotrimeric complex with checkpoint proteins RAD9 and RAD1. In response to DNA damage, the trimeric complex interacts with another protein complex consisting of checkpoint protein RAD17 and four small subunits of the replication factor C (RFC), which loads the combined complex onto the chromatin. The DNA damage induced chromatin binding has been shown to depend on the activation of the checkpoint kinase ATM, and is thought to be an early checkpoint signaling event. Alternative splicing results in multiple transcript variants.
