

## Recombinant Cynomolgus macaques CD38/ADPRC1 Protein (His Tag)

**Catalog Number:** PDEC100006

**Note:** Centrifuge before opening to ensure complete recovery of vial contents.

### Description

<b>Species</b>	Cynomolgus macaques
<b>Source</b>	E.coli-derived Cynomolgus macaques macaques CD38 protein Leu44-Ile301, with an N-terminal His
<b>Calculated MW</b>	28.3 kDa
<b>Observed MW</b>	32 kDa
<b>Accession</b>	Q5VAN0
<b>Bio-activity</b>	Not validated for activity

### Properties

<b>Purity</b>	> 95% as determined by reducing SDS-PAGE.
<b>Endotoxin</b>	< 10 EU/mg of the protein as determined by the LAL method
<b>Storage</b>	Generally, lyophilized proteins are stable for up to 12 months when stored at -20 to -80°C. Reconstituted protein solution can be stored at 4-8°C for 2-7 days. Aliquots of reconstituted samples are stable at < -20°C for 3 months.
<b>Shipping</b>	This product is provided as lyophilized powder which is shipped with ice packs.
<b>Formulation</b>	Lyophilized from a 0.2 µm filtered solution in PBS with 5% Trehalose and 5% Mannitol.
<b>Reconstitution</b>	It is recommended that sterile water be added to the vial to prepare a stock solution of 0.5 mg/mL. Concentration is measured by UV-Vis.

### Data

SDS-PAGE analysis of Cynomolgus macaques CD38/ADPRC1 proteins, 2 µg/lane of Recombinant Cynomolgus macaques CD38/ADPRC1 proteins was resolved with SDS-PAGE under reducing conditions, showing bands at 32 kDa.

### Background

CD38, also called ADP-ribosyl cyclase, is a Type II integral membrane protein with 301 amino acids in length that belongs to the ADP-ribosyl cyclase family. It synthesizes the second messengers cyclic ADP-ribose and nicotinate-adenine dinucleotide phosphate, the former a second messenger for glucose-induced insulin secretion. And also moonlights as a receptor in cells of the immune system. CD38 is expressed in B and T lymphocytes, osteoclasts, and in cardiac, pancreatic, liver and kidney cells. Through its production of cyclic ADP-ribose, CD38 modulates calcium-mediated signal transduction in many types of cells, including neutrophils and pancreatic beta cells.
