# **Human I-PTH Antibody Pair Set**

Catalog No. E-KAB-0146 Applications ELISA

**Synonyms** iPTH, Intact Parathyroid Hormone, Parathormone, Parathyrin

## **Kit components & Storage**

Title	Specifications	Storage
Human I-PTH Capture Antibody	1 vial, 100 μ g	Store at -20°C for one year.
		Avoid freeze / thaw cycles.
Human I-PTH Detection Antibody	1 vial, 50 μL	Store at -20°C for one year.
(Biotin)		Avoid freeze / thaw cycles.

Note: Centrifuge before opening to ensure complete recovery of vial contents.

#### **Product Information**

Items		Characteristic (E-KAB-0146)	
		Human I-PTH Capture Antibody	Human I-PTH Detection Antibody
			(Biotin)
Immunogen	Immunogen	Recombinant Human I-PTH protein	Recombinant Human I-PTH protein
Information	Swissprot	P01270	
Product details Reactivity		Human	Human
	Host	Mouse	Mouse
	Conjugation	Unconjugated	Biotin
	Concentration	0.5mg/mL	/
	Buffer	PBS with 0.04% Proclin 300, 50%	PBS with 0.04% Proclin 300, 1%
		glycerol, pH 7.4	protective protein, 50% glycerol, pH
			7.4
	Purify	Protein A or G	Protein A or G
	Specificity	Detects Human I-PTH in ELISAs.

## **Applications**

Human I-PTH Sandwich ELISA Assav:

	Recommended	Reagent	Images
	Concentration/Dilution		
ELISA	0.5-4μg/mL	Human I-PTH Capture Antibody	
Capture			Aiss
ELISA Detection	1:1000-1:10000	Human I-PTH Detection Antibody (Biotin)	0.01 100 1000 10000 Human I-PTH concentration(pg/mL)

Note: This standard curve is only for demonstration purposes. A standard curve should be generated for each assay!

### **Background**

This gene encodes a member of the parathyroid family of proteins. The encoded preproprotein is proteolytically processed to generate a protein that binds to the parathyroid hormone/parathyroid hormone-related peptide receptor and regulates blood calcium and phosphate levels. Excess production of the encoded protein, known as hyperparathyroidism, can result in hypercalcemia and kidney stones. On the other hand, defective processing of the encoded protein may lead to hypoparathyroidism, which can result in hypocalcemia and numbness. Alternative splicing results in multiple transcript variants.
