

A Reliable Research Partner in Life Science and Medicine

Recombinant NADPH oxidase 4 Monoclonal Antibody

catalog number: AN301066L

Note: Centrifuge before opening to ensure complete recovery of vial contents.

Description

Reactivity Human; Mouse; Rat

Immunogen Recombinant Human NADPH oxidase 4 protein

HostRabbitIsotype IgG,κ CloneB821PurificationProtein A

Buffer PBS, 50% glycerol, 0.05% Proclin 300, 0.05% protein protectant.

Applications Recommended Dilution

WB 1:1000-5000

Data

Western Blot with Recombinant NADPH oxidase 4
Monoclonal Antibody at dilution of 1:1000 dilution. Lane A:

HEK293 cells.

Observed-MW:67 kDa Calculated-MW:67 kDa

Preparation & Storage

Storage Storage Store at -20°C Valid for 12 months. Avoid freeze / thaw cycles.

Shipping Ice bag

Background

This gene encodes a member of the NOX-family of enzymes that functions as the catalytic subunit the NADPH oxidase complex. The encoded protein is localized to non-phagocytic cells where it acts as an oxygen sensor and catalyzes the reduction of molecular oxygen to various reactive oxygen species (ROS). The ROS generated by this protein have been implicated in numerous biological functions including signal transduction, cell differentiation and tumor cell growth. A pseudogene has been identified on the other arm of chromosome 11. Alternative splicing results in multiple transcript variants.
