P53 Monoclonal Antibody

catalog number: E-AB-22015

Note: Centrifuge before opening to ensure complete recovery of vial contents.

Description

Reactivity Human

Immunogen Synthetic Peptide

HostMouseIsotypeIgGClone1H4

Purification Protein A purification

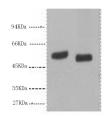

Conjugation Unconjugated

buffer Phosphate buffered solution, pH 7.4, containing 0.05% stabilizer, 0.5% protein

protectant and 50% glycerol.

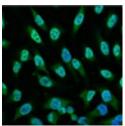

| Applications | Recommended Dilution |
|--------------|----------------------|
| WB | 1:500-1:2000 |
| IHC | 1:100-1:300 |
| IF | 1:100-1:200 |

Data

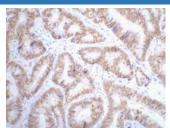

Western Blot analysis of 293T cells using p53 Monoclonal Antibody at dilution of 1) 1:1000 2) 1:2000.

Observed-MV:53 kDa Calculated-MV:44 kDa

Immunofluorescence analysis of Hela tissue using p53 Monoclonal Antibody at dilution of 1:100.

Immunohistochemistry of paraffin-embedded Human colon cancer tissue using p53 Monoclonal Antibody at dilution of 1:200.

Preparation & Storage

Storage Store at -20°C Valid for 12 months. Avoid freeze / thaw cycles.

Shipping The product is shipped with ice pack, upon receipt, store it immediately at the

temperature recommended.

Background

For Research Use Only

P53 Monoclonal Antibody

catalog number: E-AB-22015

Acts as a tumor suppressor in many tumor types; induces growth arrest or apoptosis depending on the physiological circumstances and cell type. Involved in cell cycle regulation as a trans-activator that acts to negatively regulate cell division by controlling a set of genes required for this process. One of the activated genes is an inhibitor of cyclin-dependent kinases. Apoptosis induction seems to be mediated either by stimulation of BAX and FAS antigen expression, or by repression of Bcl-2 expression. Implicated in Notch signaling cross-over. Isoform 2 enhances the transactivation activity of isoform 1 from some but not all TP53-inducible promoters. Isoform 4 suppresses transactivation activity and impairs growth suppression mediated by isoform 1. Isoform 7 inhibits isoform 1-mediated apoptosis.
