

Purified Anti-Human CD50 Antibody[CBR-IC3/1]

catalog number: AN003180P

Note: Centrifuge before opening to ensure complete recovery of vial contents.

Description

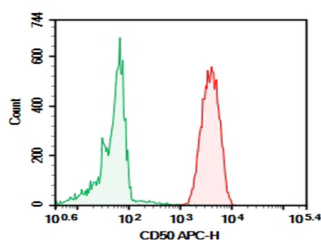

Reactivity	Human
Immunogen	Recombinant Human CD50 protein
Host	Mouse
Isotype	Mouse IgG1, κ
Clone	CBR-IC3/1
Purification	>98%, Protein A/G purified
Buffer	Phosphate-buffered solution, pH 7.2, containing 0.05% non-protein stabilizer. Dialyze to completely remove the stabilizer prior to labeling.

Applications

Recommended Dilution

FCM	2 μ g/mL (0.5 \times 10 ⁶ -1 \times 10 ⁶ cells)
------------	---

Data

Human peripheral blood lymphocytes were stained with 0.2 μ g Purified Anti-Human CD50 Antibody[CBR-IC3/1] (Right) and 0.2 μ g Mouse IgG1, κ Isotype Control (Left), followed by APC-conjugated Goat Anti-Mouse IgG Secondary Antibody.

Preparation & Storage

Storage	Store at 4°C valid for 12 months or -20°C valid for long term storage, avoid freeze / thaw cycles.
Shipping	Ice bag

Background

CD50 is a 120-140 kD type I membrane protein also known as intercellular adhesion molecule 3 (ICAM-3). It is broadly expressed on leukocytes, endothelial cells, and Langerhans cells. CD50 is a member of the Ig superfamily. It provides costimulatory signal for T cells and regulates cell adhesion through interaction with LFA-1 (CD11a/CD18, α L/ β 2) integrin.
