Amphiphysin I Polyclonal Antibody

catalog number: **E-AB-13895**

Note: *Centrifuge before opening to ensure complete recovery of vial contents.*

Description

Reactivity	Human;Mouse
Immunogen	Recombinant protein of human AMPH
Host	Rabbit
Isotype	Rabbit IgG
Purification	Affinity purification
Buffer	Phosphate buffered solution, pH 7.4, containing 0.05% stabilizer and 50% glycerol.

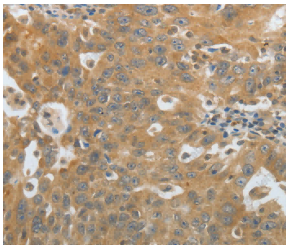

Applications	Recommended Dilution
WB	1:500-1:2000
IHC	1:50-1:200

Data

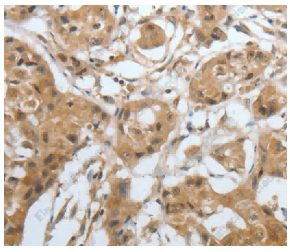

Western Blot analysis of Mouse lung tissue using Amphiphysin I Polyclonal Antibody at dilution of 1:500

Calculated-MW:76 kDa

Immunohistochemistry of paraffin-embedded Human ovarian cancer using Amphiphysin I Polyclonal Antibody at dilution of 1:30

Immunohistochemistry of paraffin-embedded Human lung cancer using Amphiphysin I Polyclonal Antibody at dilution of 1:30

Preparation & Storage

Storage	Store at -20°C Valid for 12 months. Avoid freeze / thaw cycles.
Shipping	The product is shipped with ice pack,upon receipt,store it immediately at the temperature recommended.

Background

This gene encodes a protein associated with the cytoplasmic surface of synaptic vesicles. A subset of patients with stiff-man syndrome who were also affected by breast cancer are positive for autoantibodies against this protein. Alternate splicing of this gene results in two transcript variants encoding different isoforms. Additional splice variants have been described, but their full length sequences have not been determined. A pseudogene of this gene is found on chromosome 11.
