## **GAS2** Polyclonal Antibody

catalog number: E-AB-10339

Note: Centrifuge before opening to ensure complete recovery of vial contents.

| Description              |   |
|--------------------------|---|
| Reactivity               | Human;Mouse   |
| Immunogen                | Recombinant protein of human GAS2   |
| Host                     | Rabbit  |
| Isotype                  | IgG   |
| Purification             | Affinity purification   |
| Conjugation              | Unconjugated  |
| buffer                   | Phosphate buffered solution, pH 7.4, containing 0.05% stabilizer and 50% glycerol.  |
| Applications             | Recommended Dilution  |
| IHC                      | 1:25-1:100  |
| Data                     |   |
| cancer tissue using GAS: | Image: paraffin-embedded Human thyroid<br>2 Polyclonal Antibody at dilution<br>1:50Image: paraffin-embedded Human gastric<br>cancer tissue using GAS2 Polyclonal Antibody at dilution<br>1:50 |
| Preparation & Storage    |   |
| Storage                  | Store at -20°C Valid for 12 months. Avoid freeze / thaw cycles.   |
| Shipping                 | The product is shipped with ice pack, upon receipt, store it immediately at the temperature recommended.  |
| Background               |   |
| The motein enceded here  | his consists according 2 substants that along a rule in resulting minute flamout and call shore   |

The protein encoded by this gene is a caspase-3 substrate that plays a role in regulating microfilament and cell shape changes during apoptosis. It can also modulate cell susceptibility to p53-dependent apoptosis by inhibiting calpain activity. Multiple alternatively spliced variants, encoding the same protein, have been identified.

## For Research Use Only
