

NRAS/N-Ras Monoclonal Antibody

catalog number: AN200076P

Note: Centrifuge before opening to ensure complete recovery of vial contents.

Description

Reactivity	Human
Immunogen	Recombinant Human NRAS / N-Ras Protein
Host	Mouse
Isotype	IgG1
Clone	5B12
Purification	Protein A
Buffer	0.2 µm filtered solution in PBS

Applications Recommended Dilution

WB	1:500-1:2000
-----------	--------------

Data

Western Blot with NRAS / N-Ras Monoclonal Antibody at dilution of 1:500. Lane A: A431 Whole Cell Lysate, Lane B: Mouse brain Tissue Lysate, Lysates/proteins at 30 µg per lane.

Observed-MW:21 kDa

Calculated-MW:21 kDa

Preparation & Storage

Storage	This antibody can be stored at 2°C-8°C for one month without detectable loss of activity. Antibody products are stable for twelve months from date of receipt when stored at -20°C to -80°C. Preservative-Free. Avoid repeated freeze-thaw cycles.
Shipping	Ice bag

Background

This is an N-ras oncogene encoding a membrane protein that shuttles between the Golgi apparatus and the plasma membrane. This shuttling is regulated through palmitoylation and depalmitoylation by the ZDHHC9-GOLGA7 complex. The encoded protein, which has intrinsic GTPase activity, is activated by a guanine nucleotide-exchange factor and inactivated by a GTPase activating protein. Mutations in this gene have been associated with somatic rectal cancer, follicular thyroid cancer, autoimmune lymphoproliferative syndrome, Noonan syndrome, and juvenile myelomonocytic leukemia.
