

Recombinant CES3/Carboxylesterase 3 Monoclonal Antibody

catalog number: **AN300222P**

Note: Centrifuge before opening to ensure complete recovery of vial contents.

Description

Reactivity	Human
Immunogen	Recombinant Human CES3 / Carboxylesterase 3 protein
Host	Rabbit
Isotype	IgG
Clone	7A3
Purification	Protein A
Buffer	0.2 µm filtered solution in PBS

Applications Recommended Dilution

WB	1:500-1:2000
-----------	--------------

Data

Western Blot with CES3 / Carboxylesterase 3 Monoclonal

Antibody at dilution of 1:500. Lane A: Hela Whole Cell

Lysate, Lysates/proteins at 30 µg per lane.

Observed-MW:54 kDa

Calculated-MW:62 kDa

Preparation & Storage

Storage	This antibody can be stored at 2°C-8°C for one month without detectable loss of activity. Antibody products are stable for twelve months from date of receipt when stored at -20°C to -80°C. Preservative-Free. Avoid repeated freeze-thaw cycles.
Shipping	Ice bag

Background

This gene encodes a member of the carboxylesterase large family. The family members are responsible for the hydrolysis or transesterification of various xenobiotics, such as cocaine and heroin, and endogenous substrates with ester, thioester, or amide bonds. They may participate in fatty acyl and cholesterol ester metabolism, and may play a role in the blood-brain barrier system. This gene is expressed in several tissues, particularly in colon, trachea and in brain, and the protein participates in colon and neural drug metabolism. Multiple alternatively spliced transcript variants encoding distinct isoforms have been reported, but the biological validity and/or full-length nature of some variants have not been determined.
