# ITGAV Polyclonal Antibody

**catalog number:** **E-AB-70153**

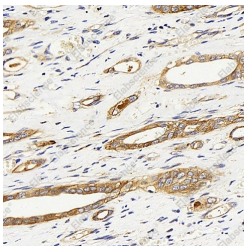

**Note:** *Centrifuge before opening to ensure complete recovery of vial contents.*

## Description

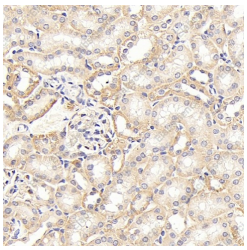

| | |
|---|---|
| **Reactivity** | Human;Mouse;Rat |
| **Immunogen** | KLH conjugated Synthetic peptide corresponding to Mouse Integrin alpha-V |
| **Host** | Rabbit |
| **Isotype** | Rabbit IgG |
| **Purification** | Affinity purification |
| **Buffer** | Phosphate buffered solution, pH 7.4, containing 0.05% stabilizer, 1% protein protectant and 50% glycerol. |

| Applications | Recommended Dilution |
|---|---|
| **IHC** | 1:300-1:1000 |

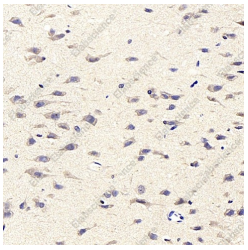

## Data

Immunohistochemistry analysis of paraffin-embedded human liver cancer using ITGAV Polyclonal Antibody at dilution of 1:300.

Immunohistochemistry analysis of paraffin-embedded mouse kidney using ITGAV Polyclonal Antibody at dilution of 1:400.

Immunohistochemistry analysis of paraffin-embedded Rat brain using ITGAV Polyclonal Antibody at dilution of 1:400.

## Preparation & Storage

| | |
|---|---|
| **Storage** | Store at -20°C Valid for 12 months. Avoid freeze / thaw cycles. |
| **Shipping** | The product is shipped with ice pack,upon receipt,store it immediately at the temperature recommended. |

The product of this gene belongs to the integrin alpha chain family. Integrins are heterodimeric integral membrane proteins composed of an alpha subunit and a beta subunit that function in cell surface adhesion and signaling. The encoded preproprotein is proteolytically processed to generate light and heavy chains that comprise the alpha V subunit. This subunit associates with beta 1, beta 3, beta 5, beta 6 and beta 8 subunits. The heterodimer consisting of alpha V and beta 3 subunits is also known as the vitronectin receptor. This integrin may regulate angiogenesis and cancer progression. Alternative splicing results in multiple transcript variants. Note that the integrin alpha 5 and integrin alpha V subunits are encoded by distinct genes.
