# **SIGLEC5 Polyclonal Antibody**

catalog number: E-AB-14839

Note: Centrifuge before opening to ensure complete recovery of vial contents.

### **Description**

Reactivity Human; Mouse

**Immunogen** Recombinant protein of human SIGLEC5

**Host** Rabbit Isotype IgG

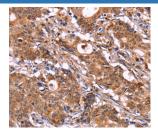

Purification Affinity purification

Buffer Phosphate buffered solution, pH 7.4, containing 0.05% stabilizer and 50% glycerol.

#### **Applications Recommended Dilution**

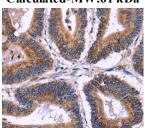

1:200-1:1000 WB 1:50-1:200 IHC

# Data

Western Blot analysis of Mouse liver tissue using SIGLEC5 Immunohistochemistry of paraffin-embedded Human gastic Polyclonal Antibody at dilution of 1:350

Calculated-MW:61 kDa

cancer using SIGLEC5 Polyclonal Antibody at dilution of

Immunohistochemistry of paraffin-embedded Human colon cancer using SIGLEC5 Polyclonal Antibody at dilution of

1:30

# Preparation & Storage

Store at -20°C Valid for 12 months. Avoid freeze / thaw cycles. Storage

Shipping The product is shipped with ice pack, upon receipt, store it immediately at the

temperature recommended.

This gene encodes a member of the sialic acid-binding immunoglobulin-like lectin (Siglec) family. These cell surface lectins are characterized by structural motifs in the immunoglobulin (Ig)-like domains and sialic acid recognition sites in the first Ig V set domain. The encoded protein is a member of the CD33-related subset of Siglecs and inhibits the activation of several cell types including monocytes, macrophages and neutrophils. Binding of group B Streptococcus (GBS) to the encoded protein plays a role in GBS immune evasion
