Elabscience[®]

Purified Anti-Human CD24 Antibody[SN3]

catalog number: AN003670P

Note: Centrifuge before opening to ensure complete recovery of vial contents.

Description				
Reactivity	Human			
Immunogen	Recombinant Human CD24 protein			
Host	Mouse			
Isotype	Mouse IgG1, ĸ			
Clone	SN3			
Purification	>98%, Protein A/G purified			
Buffer	Phosphate-buffered solution, pH 7.2, containing 0.05% non-protein stabilizer. Dia			
	to completely remove the stabilizer prior to labeling.			
Applications	Recommended Dilution			
FCM	$2 \ \mu g/mL(1 \times 10^5 - 5 \times 10^5 \text{ cells})$			

FCM

Data

	٩T				°° 1				٦

Human peripheral blood lymphocytes were stained with 0.2 µg Purified Anti-Human CD24 Antibody[SN3] (Right) and 0.2 μg Mouse IgG1, κ Isotype Control (Left), followed by Alexa Fluor® 647-conjugated Goat Anti-Mouse IgG Secondary Antibody, then anti-Human CD19 FITCconjugated Monoclonal Antibody.

Preparation & Storage				
Storage	Store at 4°C valid for 12 months or -20°C valid for long term storage, avoid freeze /			
	thaw cycles.			
Shipping	Ice bag			
Background				

This gene encodes a sialoglycoprotein that is expressed on mature granulocytes and B cells and modulates growth and differentiation signals to these cells. The precursor protein is cleaved to a short 32 amino acid mature peptide which is anchored via a glycosyl phosphatidylinositol (GPI) link to the cell surface. This gene was missing from previous genome assemblies, but is properly located on chromosome 6. Non-transcribed pseudogenes have been designated on chromosomes 1, 15, 20, and Y. Alternative splicing results in multiple transcript variants.
