

SLC2A8 Polyclonal Antibody

catalog number: E-AB-19914

Note: Centrifuge before opening to ensure complete recovery of vial contents.

Description

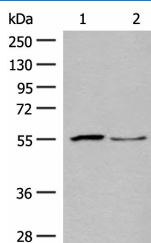

Reactivity	Human;Mouse;Rat
Immunogen	Synthetic peptide of human SLC2A8
Host	Rabbit
Isotype	IgG
Purification	Antigen affinity purification
Conjugation	Unconjugated
Buffer	Phosphate buffered solution, pH 7.4, containing 0.05% stabilizer and 50% glycerol.

Applications

Recommended Dilution

WB	1:500-1:2000
-----------	--------------

Data

Western blot analysis of Human placenta tissue and PC3 cell lysates using SLC2A8 Polyclonal Antibody at dilution of 1:400

Observed-MV:Refer to figures

Calculated-MV:51 kDa

Preparation & Storage

Storage	Store at -20°C Valid for 12 months. Avoid freeze / thaw cycles.
Shipping	The product is shipped with ice pack,upon receipt,store it immediately at the temperature recommended.

Background

This gene belongs to the solute carrier 2A family, which includes intracellular glucose transporters. Based on sequence comparison, the glucose transporters are grouped into three classes and this gene is a member of class II. The encoded protein, like other members of the family, contains several conserved residues and motifs and 12 transmembrane domains with both amino and carboxyl ends being on the cytosolic side of the membrane. Alternatively spliced transcript variants have been described for this gene.
