

Recombinant S100A8 Monoclonal Antibody

catalog number: AN301719L

Note: Centrifuge before opening to ensure complete recovery of vial contents.

Description	
Reactivity	Human;Mouse;Rat
Immunogen	Recombinant human S100A8 fragment
Host	Rabbit
Isotype	Rabbit IgG
Clone	C121341
Purification	Protein A purified
Buffer	PBS, 50% glycerol, 0.05% Proclin 300, 0.05% protein protectant.

Applications	Recommended Dilution
WB	1:500-1:1000
IHC	1:200-1:1000
FCM	1:50-1:100

Data

Western Blot with S100A8 Monoclonal Antibody at dilution of 1: 1000. Lane 1: Rat spleen

Observed-MW:11 kDa

Calculated-MW:11 kDa

Immunohistochemistry of paraffin-embedded Mouse spleen using S100A8 Monoclonal Antibody at dilution of 1:1000.

Immunohistochemistry of paraffin-embedded Human tonsil using S100A8 Monoclonal Antibody at dilution of 1: 1000.

Immunohistochemistry of paraffin-embedded Rat spleen using S100A8 Monoclonal Antibody at dilution of 1:1000.

Rev. V1.2

Flow cytometric analysis of human S100A8 expression on THP-1 cells. Cells were stained with purified anti-Human S100A8, then a Alexa Fluor 488-conjugated second step antibody. The histogram were derived from events with the forward and side light-scatter characteristics of intact cells.

Preparation & Storage

Storage	Store at -20°C Valid for 12 months. Avoid freeze / thaw cycles.
Shipping	Ice bag

Background

MRP8/S100A8 is a calcium- and zinc-binding protein which plays a prominent role in the regulation of inflammatory processes and immune response. It can induce neutrophil chemotaxis and adhesion. MRP8 has a wide plethora of intra- and extracellular functions. The intracellular functions include: facilitating leukocyte arachidonic acid trafficking and metabolism, modulation of the tubulin-dependent cytoskeleton during migration of phagocytes and activation of the neutrophilic. The extracellular functions involve proinflammatory, antimicrobial, oxidant-scavenging and apoptosis-inducing activities. Its proinflammatory activity includes recruitment of leukocytes, promotion of cytokine and chemokine production, and regulation of leukocyte adhesion and migration.
