## **Elabscience**®

## **GPR75** Polyclonal Antibody

## catalog number: E-AB-19946

Note: Centrifuge before opening to ensure complete recovery of vial contents.

| Description                                |  |
|--|--|
| Reactivity                                 | Human;Mouse  |
| Immunogen                                  | Synthetic peptide of human GPR75   |
| Host                                       | Rabbit   |
| Isotype                                    | IgG  |
| Purification                               | Antigen affinity purification  |
| Conjugation                                | Unconjugated   |
| Buffer                                     | Phosphate buffered solution, pH 7.4, containing 0.05% stabilizer and 50% glycerol. |
| Applications                               | Recommended Dilution   |
| шс   | 1:50-1:300   |
| IHC  |  |
| Data                                       |  |
| Data                                       | f paraffin-embedded Human tonsil<br>lyclonal Antibody at dilution of               |

| Data                                       | f paraffin-embedded Human tonsil<br>lyclonal Antibody at dilution of<br>:95(×200)  |
| Data                                       | f paraffin-embedded Human tonsil<br>lyclonal Antibody at dilution of               |

## Background

GPR75 is a member of the G protein-coupled receptor family. GPRs are cell surface receptors that activate guaninenucleotide binding proteins upon the binding of a ligand.
