

Recombinant Nibrin Monoclonal Antibody

catalog number: **AN301138L**

Note: Centrifuge before opening to ensure complete recovery of vial contents.

Description

Reactivity	Human;Mouse;Rat
Immunogen	Recombinant Human Nibrin protein
Host	Rabbit
Isotype	IgG, κ
Clone	11A8
Purification	Protein A
Buffer	PBS, 50% glycerol, 0.05% Proclin 300, 0.05% protein protectant.

Applications

Applications	Recommended Dilution
IHC	1:200-1:1000
WB	1:2000-1:10000

Data

Western Blot with Recombinant Nibrin Monoclonal Antibody at dilution of 1:1000. Lane A: PC-12 lysate.

Observed-MW:95 kDa
Calculated-MW:85 kDa

Immunohistochemistry of paraffin-embedded human kidney using Recombinant Nibrin Monoclonal Antibody at dilution of 1:200.

Preparation & Storage

Storage	Store at -20°C Valid for 12 months. Avoid freeze / thaw cycles.
Shipping	Ice bag

Background

Mutations in this gene are associated with Nijmegen breakage syndrome, an autosomal recessive chromosomal instability syndrome characterized by microcephaly, growth retardation, immunodeficiency, and cancer predisposition. The encoded protein is a member of the MRE11/RAD50 double-strand break repair complex which consists of 5 proteins. This gene product is thought to be involved in DNA double-strand break repair and DNA damage-induced checkpoint activation.
