

Rabbit Embryonic Limb Bud Mesenchymal Stem Cell Complete Medium

Cat. No.: CM-Rb312 Size: 125mL×4

General Information

Product Form Liquid Concentration Ready-to-use **Bacterial detection** Negative **Fungal detection** Negative Mycoplasmal detection Negative **Endotoxin level** < 3 EU/mL Shipping Ice bag

Storage 2-8°C, Shading Light

Expiry date 6 months

Product Introduction

cella® Rabbit Embryonic Limb Bud Mesenchymal Stem Cell Complete Medium is a ready-to-use medium that can be directly used for the culture of rabbit embryonic limb bud mesenchymal stem cells, which is carefully designed and optimized by Pricella's R&D team. This high-quality complete medium has been strictly verified by rabbit embryonic limb bud mesenchymal stem cells which could promote cell proliferation and maintain the cell's optimal conditions.

Guidelines for use

- 1. Pricella's cell culture media undergoes strictguality control to ensure sterility, but may get contaminated during use. Follow these guidelines for sterile handling toavoid contamination.
- 2. Always wipe your gloved hands and work area with 70% ethanol.
- 3. Wipe the outside of the containers, flasks, plates, and dishes with 70% ethanol before placing them in the cell culture hood.
- 4. Use sterile pipette tips and pipettes to work with liquids, and use each pipette tip only once to avoid cross contamination. Do not unwrap sterile pipettes until they are ready to beused. Keep pipettes and tips within the clean work area.
- 5. Do not talk while performing sterile procedures and perform your cell culture as efficiently and carefully as possible tominimize contamination.

Quality control

Standard evaluations for cell culture media are pH, osmolality, endotoxins and sterility testing for liquid products, Pricella by Elabscience cell growth experiments.
