

A Reliable Research Partner in Life Science and Medicine

# **Recombinant Oct-4 Monoclonal Antibody**

catalog number: AN300895L

Note: Centrifuge before opening to ensure complete recovery of vial contents.

### Description

Reactivity Human; Mouse

Immunogen Recombinant Human Oct-4 protein

HostRabbitIsotypeIgG,KCloneB842PurificationProtein A

**Buffer** PBS, 50% glycerol, 0.05% Proclin 300, 0.05% protein protectant.

# Applications Recommended Dilution

WB 1:2000-1:10000

#### Data

Western Blot with Recombinant Oct-4 Monoclonal Antibody

at dilution of 1:1000 dilution. Lane A: NCCIT cells.

Observed-MW:45 kDa Calculated-MW:39 kDa

# **Preparation & Storage**

Storage Storage Store at -20°C Valid for 12 months. Avoid freeze / thaw cycles.

Shipping Ice bag

# **Background**

This gene encodes a transcription factor containing a POU homeodomain that plays a key role in embryonic development and stem cell pluripotency. Aberrant expression of this gene in adult tissues is associated with tumorigenesis. This gene can participate in a translocation with The Ewing' s sarcoma gene on chromosome 21, which also leads to tumor formation. Alternative splicing, as well as usage of alternative AUG and non-AUG translation initiation codons, results in multiple isoforms. One of The AUG start codons is polymorphic in human populations. Related pseudogenes have been identified on chromosomes 1, 3, 8, 10, and 12.
