

**Streptavidin(peroxidase/HRP conjugated)**

catalog number: E-AB-1043

**Note:** Centrifuge before opening to ensure complete recovery of vial contents.

| Description           |                                                                     |
|-----------------------|---------------------------------------------------------------------|
| Purification          | Affinity purification                                               |
| Conjugation           | HRP                                                                 |
| Buffer                | PBS with 0.1% PC300, 1% protective protein and 50% glycerol, pH 7.4 |
| Applications          | Recommended Dilution                                                |
| IHC-F                 | 1:100-500                                                           |
| IHC-P                 | 1:100-200                                                           |
| WB                    | 1:3000-10000(Enhanced chemiluminescent detection)                   |
| WB                    | 1:500-3000(DAB detection)                                           |
| Direct ELISA          | 1:10000-100000(TMB detection)                                       |
| Preparation & Storage |                                                                     |
| Storage               | Store at -20°C Valid for 12 months. Avoid freeze / thaw cycles.     |
| Shipping              | Ice bag                                                             |
