Elab Bright™ Violet 421 Anti-Mouse CD11c Antibody[N418]

Catalog Number: E-AB-F0991Q2

Note: Centrifuge before opening to ensure complete recovery of vial contents.

Description

Reactivity Mouse

Host Armenian Hamster Isotype Armenian Hamster IgG2

N418 Clone No.

Elab Bright™ Violet 421 Hamster IgG2, κ Isotype Control[B81-3] [Product AN00817Q2] Isotype Control

Elab Bright™ Violet 421 Conjugation

Conjugation Information Elab Bright Violet 421 is designed to be excited by the violet laser (405 nm) and detected

using an optical filter centered near 421 nm (e.g., a 450/50 nm bandpass filter).

Storage Buffer Phosphate buffered solution, pH 7.2, containing 0.09% stabilizer and 1% protein

protectant.

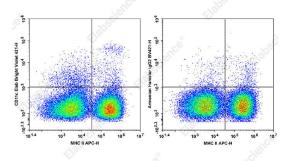

Applications

Recommended usage

FCM

Each lot of this antibody is quality control tested by flow cytometric analysis. The amount of the reagent is suggested to be used 5 µL of antibody per test (million cells in 100 μL staining volume or per 100 μL of whole blood). Please check your vial before the experiment. Since applications vary, the appropriate dilutions must be determined for individual use.

Data

Staining of C57BL/6 murine splenocytes cells with APC Anti-Mouse MHC II Antibody and Elab Bright Violet 421 Anti-Mouse CD11c Antibody[N418] (left) or Elab Bright Violet 421 Armenian Hamster IgG2 Isotype Control (right). Total viable cells were used for analysis.

Preparation & Storage

Storage Keep as concentrated solution.

This product can be stored at 2-8°C for 12 months. Please protected from prolonged

exposure to light and do not freeze.

Shipping Ice bag

Antigen Information

Alternate Names CD11 antigen-like family member C;CD11c;Integrin alpha-X;Itgax;Leukocyte adhesion

receptor p150+95

Background

CD11c is a 150 kD glycoprotein also known as α X integrin, CR4, and p150. CD11c forms a α X β 2 heterodimer with β 2 integrin (CD18). It is primarily expressed on dendritic cells, NK cells, a subset of intestinal intraepithelial lymphocytes (IEL), and some activated T cells. The α X β 2 integrin plays an important role in cell-cell contact by binding its ligands: iC3b, fibrinogen and CD54.
