

## Recombinant Integrin alpha 9 Monoclonal Antibody

catalog number: AN303246L

**Note:** *Centrifuge before opening to ensure complete recovery of vial contents.*

### Description

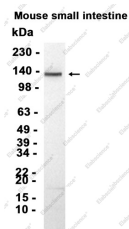

|              |                                 |
|--------------|---------------------------------|
| Reactivity   | Human;Mouse;Rat                 |
| Host         | Rabbit                          |
| Isotype      | Rabbit IgG                      |
| Clone        | C122866                         |
| Purification | Affinity Purification           |
| Buffer       | 0.2 µm filtered solution in PBS |

### Applications

### Recommended Dilution

|       |               |
|-------|---------------|
| WB    | 1:1000-1:5000 |
| IHC-P | 1:100-1:200   |

### Data

Western Blot analysis of Mouse small intestine using  
Integrin alpha 9 Monoclonal Antibody at dilution of  
1:3000.

**Observed-MW:140 kDa**

**Calculated-MW:115 kDa**

### Preparation & Storage

|          |                                                                                                                                                                                                                                                    |
|----------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Storage  | This antibody can be stored at 2°C-8°C for one month without detectable loss of activity. Antibody products are stable for twelve months from date of receipt when stored at -20°C to -80°C. Preservative-Free. Avoid repeated freeze-thaw cycles. |
| Shipping | Ice bag                                                                                                                                                                                                                                            |
