

## Recombinant PRX III Monoclonal Antibody

catalog number: AN302784L

**Note:** *Centrifuge before opening to ensure complete recovery of vial contents.*

| Description  |                                 |
|--------------|---------------------------------|
| Reactivity   | Human                           |
| Host         | Rabbit                          |
| Isotype      | Rabbit IgG                      |
| Clone        | C312404                         |
| Purification | Protein A                       |
| Buffer       | 0.2 µm filtered solution in PBS |

| Applications | Recommended Dilution |
|--------------|----------------------|
| IHC          | 1:200-1:1000         |
| WB           | 1:2000-1:10000       |
| IF           | 1:200-1:1000         |
| ELISA        | 1:5000-1:20000       |
| IP           | 1:50-1:200           |

| Data                                                                                |                                                                                      |
|-------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------|
|  |  |
| Immunohistochemical analysis of paraffin-embedded Human appendix.                   | Immunohistochemical analysis of paraffin-embedded Human liver.                       |

| Preparation & Storage |                                                                                                                                                                                                                                                    |
|-----------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Storage               | This antibody can be stored at 2°C-8°C for one month without detectable loss of activity. Antibody products are stable for twelve months from date of receipt when stored at -20°C to -80°C. Preservative-Free. Avoid repeated freeze-thaw cycles. |
| Shipping              | Ice bag                                                                                                                                                                                                                                            |
