

MDFI Polyclonal Antibody

catalog number: E-AB-52715

Note: Centrifuge before opening to ensure complete recovery of vial contents.

Description

Reactivity	Human;Rat
Immunogen	Fusion protein of human MDFI
Host	Rabbit
Isotype	Rabbit IgG
Purification	Antigen affinity purification
Buffer	Phosphate buffered solution, pH 7.4, containing 0.05% stabilizer and 50% glycerol.

Applications

Recommended Dilution

IHC	1:50-1:300
-----	------------

Data

Immunohistochemistry of paraffin-embedded Human cervical cancer tissue using MDFI Polyclonal Antibody at dilution of 1:50(×200)

Immunohistochemistry of paraffin-embedded Human colorectal cancer tissue using MDFI Polyclonal Antibody at dilution of 1:50(×200)

Preparation & Storage

Storage	Store at -20°C Valid for 12 months. Avoid freeze / thaw cycles.
Shipping	The product is shipped with ice pack, upon receipt, store it immediately at the temperature recommended.

Background

This protein is a transcription factor that negatively regulates other myogenic family proteins. Studies of the mouse homolog, I-mf, show that it interferes with myogenic factor function by masking nuclear localization signals and preventing DNA binding. Knockout mouse studies show defects in the formation of vertebrae and ribs that also involve cartilage formation in these structures. MDFI (MyoD Family Inhibitor) is a Protein Coding gene. GO annotations related to this gene include transcription factor binding. An important paralog of this gene is MDFIC.
