

NLRP6 Polyclonal Antibody

catalog number: E-AB-13438

Note: Centrifuge before opening to ensure complete recovery of vial contents.

Description

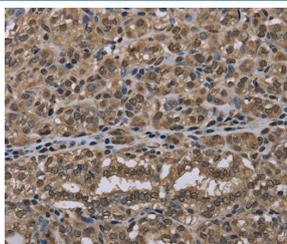

| | |
|---------------------|--|
| Reactivity | Human |
| Immunogen | Synthetic peptide of human NLRP6 |
| Host | Rabbit |
| Isotype | IgG |
| Purification | Affinity purification |
| Conjugation | Unconjugated |
| Buffer | Phosphate buffered solution, pH 7.4, containing 0.05% stabilizer and 50% glycerol. |

Applications

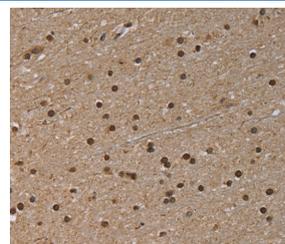

Recommended Dilution

| | |
|------------|------------|
| IHC | 1:50-1:200 |
|------------|------------|

Data

Immunohistochemistry of paraffin-embedded Human thyroid cancer tissue using NLRP6 Polyclonal Antibody at dilution 1:50

Immunohistochemistry of paraffin-embedded Human brain tissue using NLRP6 Polyclonal Antibody at dilution 1:50

Preparation & Storage

| | |
|-----------------|--|
| Storage | Store at -20°C Valid for 12 months. Avoid freeze / thaw cycles. |
| Shipping | The product is shipped with ice pack, upon receipt, store it immediately at the temperature recommended. |

Background

The protein encoded by this gene binds arginine-vasopressin and may be involved in the arginine-vasopressin-mediated regulation of renal salt-water balance. The encoded protein also mediates inflammatory responses in the colon to allow recovery from intestinal epithelial damage and protects against tumorigenesis and the development of colitis. Finally, this protein can increase activation of NF-kappa-B, activation of CASP1 through interaction with ASC, and cAMP accumulation. Two transcript variants encoding different isoforms have been found for this gene.
