

# JAK2 Polyclonal Antibody

Catalog Number: E-AB-70193

1 Publications

**Note:** Centrifuge before opening to ensure complete recovery of vial contents.

## Description

|                     |                                                                            |
|---------------------|----------------------------------------------------------------------------|
| <b>Reactivity</b>   | Mouse, Rat                                                                 |
| <b>Immunogen</b>    | KLH conjugated Synthetic peptide corresponding to Mouse JAK2               |
| <b>Host</b>         | Rabbit                                                                     |
| <b>Isotype</b>      | IgG                                                                        |
| <b>Purification</b> | Affinity purification                                                      |
| <b>Conjugation</b>  | Unconjugated                                                               |
| <b>Formulation</b>  | PBS with 0.02% sodium azide, 1% protective protein and 50% glycerol, pH7.4 |

## Applications Recommended Dilution

|           |              |
|-----------|--------------|
| <b>WB</b> | 1:500-1:2000 |
|-----------|--------------|

## Data

Western Blot analysis of various samples using JAK2 Polyclonal Antibody at dilution of 1:1000.

**Observed Mw:130kDa**

**Calculated Mw:130kDa**

## Preparation & Storage

**Storage** Store at -20°C. Avoid freeze / thaw cycles.

## Background

This gene product is a protein tyrosine kinase involved in a specific subset of cytokine receptor signaling pathways. It has been found to be constitutively associated with the prolactin receptor and is required for responses to gamma interferon. Mice that do not express an active protein for this gene exhibit embryonic lethality associated with the absence of definitive erythropoiesis.
