MLH1 Polyclonal Antibody

catalog number: E-AB-14226

Note: Centrifuge before opening to ensure complete recovery of vial contents.

| Description | | | |
|---|---|---|--|
| Reactivity | Human;Mouse;Rat | | |
| Immunogen | Recombinant protein of human MLH1 | | |
| Host | Rabbit | | |
| Is otype | IgG | | |
| Purification | Affinity purification | | |
| Conjugation | Unconjugated | | |
| buffer | Phosphate buffered solution | Phosphate buffered solution, pH 7.4, containing 0.05% stabilizer and 50% glycerol. | |
| Applications | Recommended Dilution | | |
| IHC | 1:50-1:200 | | |
| Data | | | |
| cancer tissue using MLH | paraffin-embedded Human cervical Polyclonal Antibody at dilution 1:60 | Immunohistochemistry of paraffin-embedded Human thyroid cancer tissue using MLH1 Polyclonal Antibody at dilution 1:60 | |
| Preparation & Storage | | | |
| Storage | Store at -20°C Valid for 12 months. Avoid freeze / thaw cycles. | | |
| Shipping | The product is shipped with ice pack, upon receipt, store it immediately at the | | |
| | temperature recommended. | | |
| Background | | | |
| This gene was identified as a locus frequently mutated in hereditary nonpolyposis colon cancer (HNPCC). It is a human | | | |

This gene was identified as a locus frequently mutated in hereditary nonpolyposis colon cancer (HNPCC). It is a human homolog of the E. coli DNA mismatch repair gene mutL, consistent with the characteristic alterations in microsatellite sequences (RER+phenotype) found in HNPCC. Alternative splicing results in multiple transcript variants encoding distinct isoforms. Additional transcript variants have been described, but their full-length natures have not been determined.
