

Recombinant Myeloperoxidase Monoclonal Antibody

catalog number: **AN300630L**

Note: Centrifuge before opening to ensure complete recovery of vial contents.

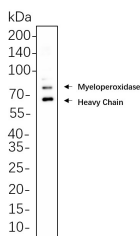

Description

Reactivity	Human;Mouse;Rat
Immunogen	Recombinant Human Myeloperoxidase protein
Host	Rabbit
Isotype	IgG, κ
Clone	6C9
Purification	Protein A
Buffer	PBS, 50% glycerol, 0.05% Proclin 300, 0.05% protein protectant.

Applications Recommended Dilution

WB	1:2000-1:10000
-----------	----------------

Data

Western Blot with Recombinant Myeloperoxidase Monoclonal Antibody at dilution of 1:1000 dilution. Lane A: HL-60 cell lysate.

Observed-MW:60,80-90 kDa

Calculated-MW:84 kDa

Preparation & Storage

Storage	Store at -20°C Valid for 12 months. Avoid freeze / thaw cycles.
Shipping	Ice bag

Background

Myeloperoxidase (MPO) is a heme protein synthesized during myeloid differentiation that constitutes the major component of neutrophil azurophilic granules. Produced as a single chain precursor, myeloperoxidase is subsequently cleaved into a light and heavy chain. The mature myeloperoxidase is a tetramer composed of 2 light chains and 2 heavy chains. This enzyme produces hypohalous acids central to the microbicidal activity of neutrophils.
