Elabscience®

ATL3 Polyclonal Antibody

catalog number: E-AB-52458

Note: Centrifuge before opening to ensure complete recovery of vial contents.

Human;Mouse;Rat Fusion protein of human ATL3 Rabbit IgG Antigen affinity purification Phosphate buffered solution, pH 7.4, containing 0.05% stabilizer and 50% glycerol. Recommended Dilution 1:500-1:2000
Fusion protein of human ATL3 Rabbit IgG Antigen affinity purification Phosphate buffered solution, pH 7.4, containing 0.05% stabilizer and 50% glycerol. Recommended Dilution 1:500-1:2000
Rabbit IgG Antigen affinity purification Phosphate buffered solution, pH 7.4, containing 0.05% stabilizer and 50% glycerol. Recommended Dilution 1:500-1:2000
IgG Antigen affinity purification Phosphate buffered solution, pH 7.4, containing 0.05% stabilizer and 50% glycerol. Recommended Dilution 1:500-1:2000
Antigen affinity purification Phosphate buffered solution, pH 7.4, containing 0.05% stabilizer and 50% glycerol. Recommended Dilution 1:500-1:2000
Phosphate buffered solution, pH 7.4, containing 0.05% stabilizer and 50% glycerol. Recommended Dilution 1:500-1:2000
Recommended Dilution 1:500-1:2000

and HEPG2 cell lysates ody at dilution of 1:400 fer to figures V:61 kDa
Store at -20°C Valid for 12 months. Avoid freeze / thaw cycles.
The product is shipped with ice pack, upon receipt, store it immediately at the

Background

This gene encodes a member of a family of dynamin-like, integral membrane GTPases. The encoded protein is required for the proper formation of the network of interconnected tubules of the endoplasmic reticulum. Mutations in this gene may be associated with hereditary sensory neuropathy type IF. Alternatively spliced transcript variants that encode distinct isoforms have been described.
