

Recombinant Human RAB11B Protein (His Tag)

Catalog Number: PKSH030533

Note: Centrifuge before opening to ensure complete recovery of vial contents.

Description

| | |
|----------------------|---|
| Species | Human |
| Source | HEK293 Cells-derived Human RAB11B protein Gly2-Cys215, with an N-terminal His |
| Calculated MW | 26.3 kDa |
| Accession | ABQ59034.1 |
| Bio-activity | Not validated for activity |

Properties

| | |
|-----------------------|---|
| Purity | > 95 % as determined by reducing SDS-PAGE. |
| Endotoxin | < 1.0 EU per µg of the protein as determined by the LAL method. |
| Storage | Generally, lyophilized proteins are stable for up to 12 months when stored at -20 to -80°C. Reconstituted protein solution can be stored at 4-8°C for 2-7 days. Aliquots of reconstituted samples are stable at < -20°C for 3 months. |
| Shipping | This product is provided as lyophilized powder which is shipped with ice packs. |
| Formulation | Lyophilized from sterile PBS, pH 7.4 Normally 5% - 8% trehalose, mannitol and 0.01% Tween 80 are added as protectants before lyophilization. Please refer to the specific buffer information in the printed manual. |
| Reconstitution | Please refer to the printed manual for detailed information. |

Data

> 95 % as determined by reducing SDS-PAGE.

Background

The two recurrent dominant mutations in RAB11B leading to a neurodevelopmental syndrome, likely caused by altered GDP/GTP binding that inactivate the protein and induce GEF binding and protein mislocalization.
