

GABPB2 Polyclonal Antibody

catalog number: E-AB-15053

Note: *Centrifuge before opening to ensure complete recovery of vial contents.*

Description

Reactivity	Human;Mouse
Immunogen	Recombinant protein of human GABPB2
Host	Rabbit
Isotype	Rabbit IgG
Purification	Affinity purification
Buffer	Phosphate buffered solution, pH 7.4, containing 0.05% stabilizer and 50% glycerol.

Applications

Recommended Dilution

IHC	1:50-1:200
-----	------------

Data

Immunohistochemistry of paraffin-embedded Human cervical cancer tissue using GABPB2 Polyclonal Antibody at dilution 1:30

Immunohistochemistry of paraffin-embedded Human brain tissue using GABPB2 Polyclonal Antibody at dilution 1:30

Preparation & Storage

Storage	Store at -20°C Valid for 12 months. Avoid freeze / thaw cycles.
Shipping	The product is shipped with ice pack, upon receipt, store it immediately at the temperature recommended.

Background

GA-binding protein subunit beta-2 is a protein that in humans is encoded by the GABPB2 gene. The GABPB variant containing a C-terminal leucine zipper motif, which they called GABP-beta, can homodimerize and form a transcriptionally active heterotetrameric complex with GABPA. The variant lacking this motif, which they called GABP-gamma, can form heterodimers but cannot form transcriptionally active heterotetramers with GABPA.
