

P4HB/ERBA2L Monoclonal Antibody

catalog number: AN200187P

Note: Centrifuge before opening to ensure complete recovery of vial contents.

Description

Reactivity	Human
Immunogen	Recombinant Human P4HB protein
Host	Mouse
Isotype	Mouse IgG1
Clone	A1039
Purification	Protein A
Buffer	0.2 µm filtered solution in PBS

Applications

Recommended Dilution

IHC-P	1:20-1:80
-------	-----------

Data

Immunohistochemistry of paraffin-embedded human small intestine using P4HB/ERBA2L Monoclonal Antibody at dilution of 1:30.

Immunohistochemistry of paraffin-embedded human liver using P4HB/ERBA2L Monoclonal Antibody at dilution of 1:30.

Immunohistochemistry of paraffin-embedded human brain using P4HB/ERBA2L Monoclonal Antibody at dilution of 1:30.

Preparation & Storage

Storage	This antibody can be stored at 2°C-8°C for one month without detectable loss of activity. Antibody products are stable for twelve months from date of receipt when stored at -20°C to -80°C. Preservative-Free. Avoid repeated freeze-thaw cycles.
Shipping	Ice bag

Rev. V1.2

This gene encodes the beta subunit of prolyl 4-hydroxylase, a highly abundant multifunctional enzyme that belongs to the protein disulfide isomerase family. When present as a tetramer consisting of two alpha and two beta subunits, this enzyme is involved in hydroxylation of prolyl residues in procollagen. This enzyme is also a disulfide isomerase containing two thioredoxin domains that catalyze the formation, breakage and rearrangement of disulfide bonds. Other known functions include its ability to act as a chaperone that inhibits aggregation of misfolded proteins in a concentration-dependent manner, its ability to bind thyroid hormone, its role in both the influx and efflux of S-nitrosothiol-bound nitric oxide, and its function as a subunit of the microsomal triglyceride transfer protein complex.
